

Krishna says

Project Technical Report

Project Overview

Krishna says is a high-end web application designed to provide spiritual and philosophical guidance. It utilizes modern web technologies and a glassmorphism design language to create an immersive user experience.

Design System & Branding

Primary (Saffron): #FF9933

Secondary (Indigo): #6366F1

Accent (Gold): #FFD700

Project Structure

- app.test.js
- assets
- index.html
- js
- main.js
- package.json
- style.css

Key Features

- Multi-Agent System (Auth, Profile, Wisdom, Safety, UI)
- Mood-Aware AI Guidance (Neutral, Anxious, Confused, Ambitious, Peaceful)
- Immersive Temple Mode (Zen UI) with Backdrop Blurs
- Audio System: Ambient Background Sounds (Flute, Nature, Chants)
- Spiritual Journal: Persistent Favorites with Personal Reflections
- Wallet & Subscription System (Razorpay/Stripe Simulation)
- Three-Stage Mandatory Legal Disclaimers
- Verse of the Day Widget on Dashboard
- High-End Glassmorphism Design Language
- Voice Interaction (TTS) & Multi-language Support (EN/HI/GU)

Technical Stack

- Frontend: Semantic HTML5, CSS3 (Glassmorphism)
- Logic: Modern ES6+ JavaScript
- Environment: Node.js (Development Server)
- Testing: Vitest, JSDOM for UI assertions
- PDF Engine: PDFKit

Validation & Test Results
